The Week's Hockey Gossip

At home on Monday evening they renewed their feud with Lethbridge and were nosed out 1-0 with two minutes left remaining in the third period. In this game Canadians played a more defensive style on hockey than has been their habit and held their opponents in check until the final two minutes.

The brilliant goalkeeping by Andy Young in the Lethbridge net kept Coleman off the score sheet, being in on him time and again.

Kemp in goal was in his usual good form and in addition to staving off countless Lethbridge shots, balked two penalty shots against Canadians.

Canadians, regardless of last week's setback, are still in a position to move into fourth place in the league standing. At the present time of writing (Tuesday) they are three points behind the fourth place Edmonton Eskimos and still have one game in hand. Should they win against Turner Valley they are only one point behind with the same number of

games played. From then on it is every team for themselves. Canadians can take care of themselves and with a little more determination will soon be sliding into fourth place and a playoff berth. All together, boys! Canadians Start Road Trip Saturday

Canadians once again take to the road this week end. On Saturday they invade Victoria Arena, Calgary, where they intend to buck the Stampede right out of Alberta's hockey playoff picture. The following Monday they again visit Turner Valley, where they will endeavor to turn the tables on the wily Elmer Piper and his band of puck-chasers. Next Thursday they travel to Lethbridge where they will engage the Leafs.

Fortune failed to smile on Canadians in their hockey battles during the past week. They met with reverses at Drumheller by a score of 10-1 and at Calgary, Turner Valley came out on the long end of a 9-2 score.

SHOPPING HINTS OF INTEREST

January Clearance Sale at Abousaf's is a real shopping opportunity for thrifty shoppers to secure the advantage of mid-winter bargains.

Pattinson's Hardware Bargain Counter joins in the January sales to offer shoppers articles that are useful at all times at greatly reduced prices for a brief period.

Coleman Cash Grocery, the always reliable local Associated Grocers Ltd. sales outlet, brings to you the ever interesting bi-monthly budget of household interest. Page 8.

"The Fashion Plate," ladies' and gent's wear, in the Celli Block, is offering through a one week clearance sale, some fine goods; see advertisement on page. Boris Spevak, proprietor.

Charles Nicholas' store is inviting shoppers through a display advert in this issue.

It is of interest to note the reopening of the Big Corner store, with two former employees operating their own stores. Joe Spivak, for the past year in business in groceries, has moved from the west end of Main street, requiring increased space, and "Brock" Bell, formerly in charge of the meat department of Lediue's, is now on his own and has a fine stock of high quality fresh and smoked meats, fish, etc. See their ad.

Strike Situation at Pass Mines Shows No Change

Blairmore, Bellevue and Maple Leaf Miners in Dispute Over Method of Payment on Tonnage Basis — Reported Management Will Not Negotiate, While Men Remain Out.

Miners at West Canadian Collieries at Blairmore and Bellevue, and at Mohawk Bituminous Mines, are on strike. The reason is that the companies, and the miners, who are members of District 18, United Mine Workers of America, cannot agree on the method or rate of payment per ton to the miners for digging the coal. In these mines payment has heretofore been made by cubic yard measurement. Under a new agreement and a ruling of the McGillivray commission of inquiry, held during 1938, miners are to be paid on the tonnage basis or weight of coal loaded into mine cars.

Conditions are quiet at the mines. Robert Livett, president of District 18, has been in the district, and according to reports, states that there will not be a sympathetic strike of other locals in the district.

Coleman Miners' Association, not being affiliated with District 18, is not affected by the strike.

Death of Mrs. W. J. D. Rogers

Esteemed Citizen of Arrow Lakes Buried Saturday. School Closed Two Days

Death came to an esteemed citizen of East Arrow Park, Arrow Lakes, B.C., on Wednesday evening, when Mrs. W. J. D. Rogers, 44 years, wife of "Billy" Rogers, former Coleman resident, eighteen years ago, passed away. Death was caused from a ruptured appendix.

Word was received of her death Thursday afternoon by Mr. Rogers' brothers, Chris and Jack.

Mr. and Mrs. Rogers were married in Coleman in 1920, Rev. D. K. Allan conducting the wedding ceremony. They resided in Coleman two months after their marriage, moving to the Kootenays, where they have resided since. Mrs. Rogers was an esteemed citizen of East Arrow Park, taking an active interest in church and community affairs. In respect to her memory the school was closed for two days. Large numbers attended the funeral, the casket being covered by many wreaths.

Left to mourn her passing are two sons, Walter, 16, and Leslie, 12, besides her husband.

Relatives attending the funeral from Coleman were Mr. and Mrs. Jack Rogers and Mrs. Chris Rogers. Charles Greenland, well known Kimberley football player, is a brother and was also present.

With Canadians Leading 3-0 Oilers Power Play in Third Period Nets Two Goals—Tense Excitement Last Moments as Play Waged Furiously Around Goalie Dave Kemp

Holding in check a powerful third period attack, Canadians gained a 3-2 decision over Turner Valley Oilers here last night before 1000 fans. By their win Canadians are again snapping at the heels of Edmonton Eskimos for the coveted fourth place play-off position in the league.

Coleman took a 1-0 lead two minutes from the start, increased it to 3-0 with two quick goals in the third period and held it against a desperate third period onslaught which saw Oilers throw caution to the winds and creep within one goal of tying the score. Redisky, McKillop and Sanderson scored for Canadians, Stan Chakowski and Martinson for Oilers. The game was remarkably clean, four penalties being handed out, two to each team.

The teams had barely settled down when Sanderson rushed into the Oilers' zone, drew the defencemen after him and passed to Redisky who scored with a low hard shot into the corner of the net. Play speeded up and both Kemp and McKay gave a spectacular net-minding display as both teams bored in and let drive with terrific shots.

Ice was a little sticky during the second period. Redisky received a pass when in the clear but failed to get his shot away when the rubber refused to behave. Sprout secured the puck and shot from close-in on McKay. Doling was penalized for tripping. Davies broke away from a Coleman power play only to be stopped by Kemp who sprouted a miraculous save. Sprout just failed to connect on Kwasnie's pass while standing in game to win 3-2.

front of McKay on the power play. The game roughened up and McKillop was chased when he swung at Doling. Seconds later Landiak received a terrific shot on the forehead, felling him. He had to retire to the dressing room for attention and was given a big hand when he re-appeared on the ice.

The third canto opened at high speed. Kearns took the rubber off Redisky's stick in the nick of time. Both Redisky and Sprout broke through but failed to score. Kemp had to move fast on an Oiler thrust which almost clicked. Canadians went two up when Fraser broke away at his own blue-line, passed to McKillop at the Oilers' blue-line who went in to score. One minute later Sanderson and Sprout broke away from an Oiler power play, the latter shot at McKay who stopped the shot but was unable to cope with Sanderson's bullet drive. Elmer Piper, Oilers' coach, almost swallowed his gum when Coleman took this commanding lead.

"Everything or nothing" was the motto of the Oilers from then on and they started a power play that lasted right up till the final whistle and which had Canadians using all the strategy at their command to hold on to their three goal lead. Stan. Chakowski put Oilers on the score sheet when he scored while standing just outside the goal-crease, at the twelve minute mark. Three minutes later from a Coleman power play only Martinson scored Oilers' second goal, the result of a scrimmage around the net. Canadians held Oilers out for the rest of the game to win 3-2.

'LAW OF THE UNDERWORLD'

The Wheat Problem

Not for the first time has it been said that a more intensive development of the natural resources other than those of the top six inches of the soil, in the three prairie provinces should be prosecuted, as an aid to their chief industry—agriculture.

With markets for export wheat gradually restricting instead of expanding, as they should do to keep pace with the extension of wheat growing areas in this and other countries in recent decades, farmers themselves have come to the conclusion that bountiful yields are more likely to prove embarrassing than a solution to the grain growers' problem, unless some agreement can be reached between the exporting countries to curtail production, directly or indirectly.

If, as seems probable at this date, no export quota agreement can be made effective as between the big four exporting countries, the problem of the wheat grower in Western Canada will have to be attacked from some other angle if wheat farmers are to be able to reap reasonable returns for their labors without adventurous aid from the government which means, of course, assistance from the taxpayers of the country.

It is true, of course, that for the current crop year wheat farmers are receiving aid from the government in the form of a guaranteed fixed minimum price for their product, but even though the guaranteed price is regarded by farmers as lower than it should be to ensure maintenance of a good standard of living, estimates place the loss to the country as a whole at a very substantial figure.

If the farmers' contentions are correct, and it would be difficult to refute them, it means that had the minimum guaranteed fixed price been set at an adequate figure, the subsidy which the Dominion would have been called upon to pay would have been very much greater and, if existing world demand continues on the present day plane, possibly beyond the ability of the country to finance over a period of years and more so would this be the case in years of heavy yields which would tend to further depress prices in the open market.

Under such circumstances it might be difficult to persuade any government to pursue a permanent guaranteed price policy at a figure adequate to ensure to the farmers a standard of living to which they have been accustomed in the pre-depression era.

Many Solutions Offered

Faced with these probabilities, it would appear to be the part of wisdom for the prairie governments, the federal government and the farmers themselves to canvass the possibility of placing western agriculture on a less precarious basis and to seek in other directions a more or less permanent solution of the problem; in other words, to determine what policies may be devised to enable agriculture in Western Canada to stand on its own feet, rather than remain dependent for any length of time on an inadequate price fixing policy.

Many solutions to the problem have been offered by experts and some who perhaps do not fall within that category. They include greater diversification, greater per capita home consumption of wheat, the use of wheat and its by-products in industry for which other domestic and export markets or both might be found, campaigns to encourage greater consumption of Canadian wheat in existing customer countries, curtailment of production by agreement or otherwise and expansion of home markets through more intensive and progressive development of other resources of the western country.

If efforts are to be made to place Western agriculture on a self-sustaining basis and this, it must be agreed, is the most desirable objective if possible of attainment, it may be safely said that no single one of the panaceas above enumerated will serve the purpose. Rather, the objective is more likely to be achieved by a combination of several of them.

Would Aid Solution

Perhaps more than any other one factor, however, that would do much to bring Western agriculture more nearly to a self-sustaining basis, would be a speeding up of the development of the resources of the country, other than the land itself.

It seems almost superfluous to point out that all three prairie provinces are richly endowed with potentially valuable resources of great extent, some of them known and others unknown. They include not only such well known ones as timber, fish and fur bearing animals but oil, minerals, including both precious and base metals, as well as the lesser known and more humble chemical deposits, clays, pigments, etc.

If a drive were to be made, with the whole-hearted co-operation of governments and individuals to conserve, develop, process and market all of these resources on a greater scale than hitherto, the result would be the development of wide domestic markets for local agricultural produce and a step forward would be made in solving the twin agricultural and unemployment problems.

Predicts Wet Year

Man in Wisconsin Bases His Forecast On Layers Of Onion

The word from Joe Ott, weather prophet of Two Rivers, Wisconsin, who bases his forecasts on the layers of an onion, was that 1939 would be a dampish year. Ott made his annual visit to the cellar at the stroke of midnight. New Year's Eve, sliced open a Wisconsin onion, applied some salt, and decided that January would be medium, February wet, March medium, April wet, May medium, June dry, July medium, August, September and October wet, November and December medium.

A large elephant will consume between 100 and 125 pounds of hay daily, in addition to other foods.

United with oxygen, carbon occurs as carbonic acid in the atmosphere.

Large Budget For Defence

Estimate This Year Expected To Reach High Figure

Canada's defence estimates this year will probably reach the \$50,000,000 mark, highest figure since the war, and when due provision is made for ordinary maintenance, the bulk of the remainder will be applied to the Royal Canadian Air Force, according to information at Ottawa.

The air force estimates will reflect the protracted negotiations in progress since the close of the last parliamentary session between the Canadian and United Kingdom governments with regard to the training of flyers in Canada for the Royal Air Force. Agreement is believed to have been reached on practically all points.

This will mean an expansion of Canada's existing facilities with a concentration of work in the new training command established within the last few months at Toronto. The principal flying school will be Camp Borden.

The British trainers will be recruited by the R.C.A.F. in provisional units, and the whole scheme will be administered by the national defence department.

"Fader, vot is interest and capital?"

"Vell, my poy, if you vas to pick up a shilling, and take it, that vould be interest; but if you vas to bring it home and give it to me, that vould be capital."

According to scientists, the average child should have three or four meals, daily, even if small ones, because children digest food much more rapidly than adults.

Antipater, of Palestine, is thought to have made the selection of the "Seven Wonders of the World" about 200 B.C.

Twenty-five miles an hour is said to be the most economical speed for an automobile.

"MAKE TRACKS FOR OGDEN'S"

Hit the trail right now to more enjoyment from the cigarettes you roll yourself! Slip into any tobacco store and get yourself a package of OGDEN'S Fine Cut. Then roll a cigarette with this fragrant, mellow tobacco, touch a light to it and—man! You've found the one smoother, sweeter, better. And don't forget—OGDEN'S rolls built with "Chanticleer" or "Vogue" papers.

OGDEN'S FINE CUT

Indian Doctor

Dr. Eastman, Full-Blooded Sioux, Once Lived In Western Canada

Dr. Charles A. Eastman, 80, who roamed Saskatchewan plains as Chief Ojibwa, a full-blooded Sioux, died recently in Detroit. He was one of the best-educated Indians on the continent and won his degree in medicine from Boston college.

Born in the western United States, his early years were spent migrating westward and northward as advancing civilization made members of his tribe seek virgin territory. After he returned from Canada, United States Indian department officials gave him educational opportunities and he adopted the name of Eastman.

He lectured and did Y.M.C.A. work in Canada and the United States. He bought an island home near Sault Ste. Marie, Ont. He died after a brief illness.

Developed Red Feathers

Experiment With White Chickens Part Of Interesting Study

Robin Red-breast's feather colors were given to white leghorns in a new genetic experiment reported to the American Association for the Advancement of Science. Dr. Mary E. Rawles of the University of Rochester took from robin eggs a bit of embryonic bird and placed it in a hen's skin. She put it into a white leghorn egg, placing it on a "bud" which develops into the hen's wing. The result when the chickens hatched was feathers with white leghorn shapes but robin tints. There was nothing suggestive of robins except these colors. After the first moult the robin colors disappeared, not to return. The study is part of a search for the methods by which nature controls colors of feathers.

Effort To Reduce Accidents

Britain To Test Brakes Of Automobiles On Roads

As part of a campaign to reduce the toll of life and limb in road accidents, police motor patrols have begun to carry devices for testing the brakes of automobiles on the road. In cases where they have reason to believe the brakes on any car are not properly efficient, the police will make a test. If the "decelometer" confirms the inadequacy of braking effect, the motorist will be notified to have the defects remedied.

Scholarships Offered

The British council, whose funds are derived from government subsidy and private subscription, announced it is offering annually four \$1,400 one-year post-graduate scholarships in the United Kingdom to selected graduates from Canada, Australia, New Zealand and South Africa.

How to get interested in life. Observe and work.

HAVE YOU INDIGESTION, GAS?

If you are troubled with gas, heartburn or indigestion, try Dr. Pierce's Golden Medical Discovery. It will improve your digestion. Dr. Pierce's Golden Medical Discovery improves the action of the stomach so food will be digested better. Mrs. Doris Berke, 126 Robson St., E., Hamilton, Ont., writes: "After eating I would get indigestion and suffer from heartburn and indigestion quite badly. I felt very weak and nervous. I used Dr. Pierce's Golden Medical Discovery and it was wonderful. It cleared up the acid stomach and that unpleasant condition in my stomach is now gone. I feel my stomach is day for it is liquid so food is."

Coming Closer To Earth

Planet Mars Will Put On Astronomical Show In July

Mars is making rapidly toward the earth and will furnish one of the astronomical shows of the year. "Now 176,000,000 miles distant, Mars will approach within 36,000,000 miles of the earth July 27," Dr. Fredrick Bessert, assistant director of the Carnegie Institution's Mt. Wilson observatory, said.

"It will then appear 50 times brighter than now."

Mars will be directly opposite the earth from the sun. This happens about once in two years.

Despite its close approach, however, Mars will not outshine Venus in brightness. Venus is now 41,980,000 miles from the earth, nearest it will be this year. It is visible in the southern sky just before sunrise.

Disruption of telegraph and telephone service and short wave radio fadeout likely will come at intervals. Due to its position, solar eruptions will be visible in the past two years.

Four eclipses, two of the moon and two of the sun, are on the 1939 calendar, but only one will be visible in North America. A solar eclipse will be seen next April from as far south as the Mexican border. The centre of its path will lie across the Aleutian Islands and Alaska.

CONFINED ABED BY LUMBAGO

In Pain for Weeks

Acting on his principles of "when you know a good thing tell your friends about it," a man who has very bad lumbago pains writes as follows:

"I suffered from lumbago, and for weeks could scarcely move in bed. I had treatment, but it did not ease the pain very much. A friend said, 'Why not take Kruschen Salts? Take them every morning, and you'll likely get relief from that pain in your morning.' So I have taken them every morning since that time and am in fit condition for my work again—thanks to Kruschen."—C.B.

Why is it that lumbago, backache, rheumatism and indigestion in many cases yield to Kruschen Salts? Because it is a combination of several mineral salts that are vital for your bodily well-being. Each of these salts has an action of its own. Stomach, liver, kidneys and digestive tract are all benefited and toned up to a high state of efficiency.

Clothing From Wood

Says Northern Ontario Has Plenty Of Raw Material

Hon. Peter Heenan, Ontario minister of lands and forests, explained that plans for the use of sulphite in manufacturing clothing were only in the experimental stage in Ontario.

The minister, however, predicted sales in an action of its own. Stomach, liver, kidneys and digestive tract are all benefited and toned up to a high state of efficiency.

He explained that in the United States 15,000,000 tons of sulphite were used during 1937 in the manufacture of clothing. He also saw no reason why Ontario should not find an outlet for its lumber for its huge pulpwood supply as a large amount of the United States sulphite was obtained from Europe.

The minister was unaware of the exact process in producing clothes from sulphite but he maintained clothing could be obtained in the new manner at a lower cost than in the present mode of manufacture. All types of clothing could be produced.

Mr. Heenan said he had obtained several ties made from sulphite. Like other clothing made in this way, the ties were practically no different than those manufactured from silk or other material.

Using Canadian Birch

Canadian birch will line the walls of the main booking hall of Imperial Airways new terminal building, under construction near Victoria station in London. The wood, beautifully grained, is light and silky in finish. It is one of a number of empire woods used in the building.

Armadillos are sometimes compared to turtles, but they are actually very similar, since the armadillo has flexible armor and is a mammal, not a reptile.

"What exactly happens when the human body is immersed in warm water?" asks a doctor. The phone bell rings.

The sun and the moon appear about the same size to observers on earth, but the sun actually has a diameter 400 times that of the moon.

Has Become Good Business

Amethysts Plentiful In Cliffs Around Scott's Bay, Nova Scotia

Winter frost means more than just cold weather in Scott's Bay, Nova Scotia. It may bring pocket money to amethyst hunters next spring. When the thaw sets in they will pick the purple-banded stones from the shore of amethyst quartz outcrop at the face of cliffs around the cove.

Cyrus Steele of Scott's Bay described amethyst hunting as a "catch-as-catch-can" business, but he said sales of amethysts to tourists have increased ten-fold in the last six or seven years. Some of them find their way into brooches, lockets and rings, but tourists who drive along the North Mountains like to buy the unfinished rocks in which amethysts nestle.

The only billboards the summer tourists see as they drive through the hill country say "Amethysts For Sale." W. R. Palmer, a jeweller in nearby Kentville, said the stones meant a \$100,000 a year business to Nova Scotia.

Amethysts are found sandwiched between layers of rock. Splitting the rock exposes the purple crystal. Stains run through the trap-rock formations of the mountain. Sometimes a plough turns them up. Often a farmer boring a well strikes an amethyst bed.

These beds are another source of the stones. The amethyst hunters strip off the covering clay and dynamite the rock. Hill people tell stories of fabulous beds of the purple gems in some secret place in the hills.

Amethysts which are turned into jewelry have to be sent to Europe to be cut. There are few jewel cutters on this side of the Atlantic.

Like most gems, the amethyst is surrounded by superstition. It gets its name from a Greek word, meaning it will protect its wearer from strong drink. The belief was held that who drank from a cup of amethyst would not intoxicate. They are found in many other parts of the world. One of the chief sources is Uruguay.

SELECTED RECIPES

CHERRY PARFAIT

1 cup whipping cream
1 tablespoon sugar
1/2 teaspoon almond extract
1/2 teaspoon salt
1 cup canned red cherries, drained
1/2 cup cream
10 Lorna Doone Shortbread.

Whip cream stiff, add sugar and almond extract. Fold in cherries and shortbread. Pour into glass dish and serve in sherbet glasses topped with whole cherry. Six portions.

ICED POTATO SALAD

4 cups potatoes (diced)
2 slices bacon
1 small onion
1/2 teaspoon salt
1/2 large slices celery
2 hard-cooked eggs
1 tablespoon parsley
Jiffy mayonnaise

Method: Cook potatoes in their skins in boiling salted water, until tender. When cold, remove the skins and dice. Dice two slices breakfast bacon and cook until crisp and brown. Add to potatoes and shake until blended. Add onion which has been finely cut, salt, chopped celery, whites of hard-cooked eggs and chopped parsley. Moisten with Jiffy mayonnaise and toss with a fork. Pile on a platter and ice all over with Jiffy mayonnaise to which has been added a small quantity of whipped cream.

Use all grade yolks of hard-cooked eggs. Decorate with leaves cut from green peppers and flower petals cut from pieces of raw carrot. Eight servings.

A Hollywood screen actress announces the loss of her amethyst beryl and chrysolite necklace. One theory is that in the interests of publicity she is running through her jewellery in alphabetical order.

"You never tell me what you're going to buy. Doesn't a husband have a voice in the buying?"

"Of course, dear, you have the invoice."

"Mother advised me to have the 'loves' left out of my marriage service, but I wouldn't agree."

"That was nice of you, darling."

"I said you could take a joke as well as any man!"

ICE CREAM from a wintry window-sill!

HERE'S a delicious ice cream that you can make with no trouble—at less cost than store ice cream! Mix one package of Jell-O Ice Cream Powder in one quart of half milk, half cream. Place the bowl outside on your window-sill in freezing weather, sit occasionally. Jack Frost will do the rest. And how the family will praise the rich, smooth, full-flavored texture of this ice cream you've made yourself! Ask for some today at your grocer's. It comes in five tempting flavours, chocolate, strawberry, vanilla, maple, lemon.

JELL-O ICE CREAM POWDER

A Lonesome Job

Seeking A Warden For The Island Of The Galt Of Man

The National Trust are seeking a warden for the Galt of Man, an island property some five miles in circumference, and separated from the Isle of Man by a channel a quarter of a mile across.

Though the channel is narrow a strong tide runs, and may in rough weather cut off all communication for days on end. Bounded by cliffs rising to 400 feet in places, the island has a well built farmhouse and some 60 acres of farmland and further rough grazing. There are also two lighthouses, one of which has been turned into a residence.

The problem is to find someone who is prepared to make the island his home, to run the farm for his own needs, to look after the property, to watch the bird and plant life, and to collect landing fees.

On this island sanctuary merlins, peregrines, choughs, ravens, gulls, kittiwakes, puffins, razorbills, and some 70 other species may be observed.—London Times.

Valuable Antique Stolen

Precious Medallion Missing From Royal Museum In Stockholm

Sweden's most precious antique the jewelled medallion known as the Västana Braktea, has vanished. Presumably it has been stolen from the Royal Historical museum, the London Daily Mail reported from Stockholm. Valued at \$100,000, the Västana Braktea is a gold-medallion gem in the shape of an old Roman coin and is 1,538 years old. It was discovered buried in the earth at Västana in 1587.

"Mother advised me to have the 'loves' left out of my marriage service, but I wouldn't agree."

"That was nice of you, darling."

"I said you could take a joke as well as any man!"

Britain Sends Note To Japan Regarding The Economic Bloc

London.—The British government has sent a strongly-worded note to Japan, bluntly stating economic changes in China established through use of force will not be accepted or recognized.

It emphasized Great Britain could not agree to unilateral modification or abrogation of the nine-power treaty of 1922 which guaranteed China's sovereignty and established the open door principle for the world's commerce with China.

At the same time, the British government offered to consider constructive suggestions from Japan, or modification of the agreements relating to China, but in the meantime reserve all their rights under existing treaties.

The note does not mention economic retaliation against Japan if Tokyo persists in efforts to form a closed market of Japan, China and Manchukuo. But it is known that policy is in the mind of the British government.

Two features of the note were considered of primary importance. In the first place, it conforms to the general attitude of a note sent Dec. 31 to Tokyo by the United States government. Secondly, France was consulted about it and agreed to its terms.

From these facts it appeared more than likely Japan would be faced with an economic "ganging-up" by these three powerful nations if it persisted in flouting British, French and American business interests in China.

What form these economic sanctions might take is unknown, but already the London and Washington governments have extended credits to China to purchase trucks for its new backdoor route to Burma. There has been talk of British support for the Chinese dollar which Japan has been attempting to replace with her own currency—the yen—but no action has been taken as yet.

The note referred to the obvious policy of the Japanese government to form an economic bloc in Asia "in which the supreme authority will be vested in Japan and subordinate roles will be allotted to China and Manchuria (Manchukuo)."

"His Majesty's government," the note emphasized, "are at a loss to understand how the Japanese government (former Japanese prime minister) assurance that Japan seeks no territory, and respects the sovereignty of China, can be reconciled with the declared intention of the Japanese government to compel the Chinese people by force of arms to accept conditions involving surrender of their political, economic and cultural life to Japan."

World Conference On Wheat Situation May Soon Be Called

London.—The international wheat advisory committee, attempting to solve a double problem of huge surpluses and low prices, agreed to call a world conference to consider the wheat situation.

Such a meeting, the first since 1935, will be subject to general acceptance of agenda. A sub-committee including Canada, the United States, Great Britain and Argentina was appointed to work out details of that problem.

At committee sessions 10 exporting nations favored minimum price agreements as a solution of world wheat ills, but delegates from 12 importing countries disagreed and favored an export quota system.

Both Vincent Massey, for Canada, and Carlos Bribbia, the Argentine representative, warned of the perils of a fruitless parity and threefold water on suggestions for acreage reduction as a means of eliminating the wheat glut.

Canada is "not yet convinced that acreage reduction offers a practical way out of difficulty," Mr. Massey said. "When we consider application of such a scheme to our own domestic problem we are faced with very great practical difficulties."

Solutions suggested by the committee secretariat included some agreement on minimum prices subject to market fluctuations, abolition of export subsidies, non-expansion of present acreage and lowering of tariffs.

The agenda committee is to consider a proposal by the Northwest Grain Dealers' Association for an

international wheat research bureau and an Australian proposal for investigation of how sound national policies might shift production from cereals to fruits, meats and other "protective foodstuffs."

Canada will be a member of the special committee to be established to prepare for a world wheat conference.

It will attempt to draft a basis of discussion for the conference of all importing and exporting wheat countries, working on the principle that it is better not to hold a world parity unless beneficial results will develop from it.

Because of the attitude of several nations, the world conference may be forced to rely chiefly on a system of export quotas for any international agreement. Several nations have spoken in favor of setting a minimum price but importing countries have declined to bind themselves by one. The principle of acreage reduction is not being received favorably.

Great Britain, the chief importing country, has declined to bind itself to purchase wheat only from quota countries, on the ground it might give rise to considerable trade in bootleg wheat.

Other countries which agreed in principle to a world conference, although some made reservations on policies, were Russia, Denmark, Finland, Italy, Roumania, Spain and Yugoslavia.

The committee instructed its secretary, Andrew Cairns, formerly of Winnipeg, to draw up a report on the conference which might take the form of agenda for consideration.

Criticizes United States

Rhys Davis Talks Bluntly On Visit To New York

New York.—American are "wacky" in their attitude toward British foreign policy, Rhys J. Davis, visiting member of parliament, said.

Explaining he meant "foolish," the white-haired Welshman defended Prime Minister Chamberlain's appeasement program although he is a member of the opposition Labor party. He chided the United States who think Britain "must always be the police force of the world whenever minorities suffer anywhere."

"The old gag is particularly true that 'Americans would fight Germany to the last Englishman,' he continued.

"In Great Britain we welcome the radio addresses of President Roosevelt saying nice things about the democracies, but we would feel more assured if your president gave some indication America will be with us the first day of the war, when we finally decide to stand up against the dictators. Because the next war, which will be decided in the air, will last no longer than three months."

Why did America expect us more than itself to fight for Czechoslovakia? We had no treaties with Czech-Slovakia, yet the Americans, smoking their wonderful cheap cigars, still complain because our young men did not do battle on the plains of central Europe."

Manitoba Schools

Vigorous Attack Made On Administration And Financing

Winnipeg.—President John N. McFadden, Dauphin, Man., launched a vigorous attack on the administration and financing of schools in Manitoba at a session here of the 39th annual convention of the Manitoba School Trustees' Association.

Mr. McFadden declared there were schools in the province which were not being run efficiently and that trustees of some districts were not doing their duty and were not capable of giving either the children or their teachers a fair chance.

Turning to finances, he said the present system was wrong. "You can't tell me there isn't money available in the province of Manitoba for a decent education, for decent salaries for teachers, when the hard liquor bill is greater than the cost of education."

Fast Craft Demonstrated

Automobile Torpedo Boat Hits Cruising Radius Of 1,000 Miles

Southampton.—A fast "mosquito boat" was demonstrated by its designer, Hubert Scott-Paine, Scott-Paine's craft, known as the "automobile torpedo boat," is equipped to carry either two 21-inch or four 18-inch torpedo tubes. It mounts three turret guns of light calibre, one of them powerful enough to pierce the hull of a destroyer or submarine.

Powered by three motors of 1,000 horsepower each, Scott-Paine's boat assertedly can speed up from 10 to 40 knots in eight seconds and has a cruising radius of about 1,000 miles.

President Of Seed Growers

George Avery, Kelso, Re-Elected Head Of Saskatchewan Branch

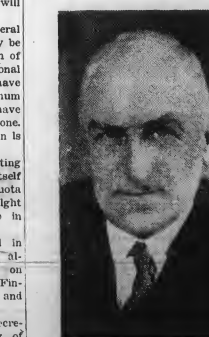

Saskatoon.—George Avery, prominent farmer of Kelso, was re-elected president of the Saskatchewan branch, Canadian Seed Growers' Association, at the annual convention of the branch, held at the University of Saskatchewan.

Other officers elected were James Rugg of Estevan, vice-president; and Thomas Teare of Marquis, W. J. B. Harrington of the University of Saskatchewan, directors.

Advocates Advertising Campaign

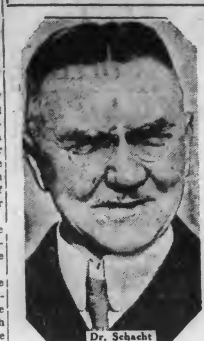

Winnipeg.—A vigorous advertising campaign for wider distribution of fruits and vegetables was urged by delegates to the convention of the Canadian Fruit Wholesalers' Association. A committee was appointed to study the question of a co-operative advertising campaign.

TO ACT AS BRITISH ARMS ADVISERS

Above are two of the prominent British business men appointed to act as advisers on the industrial advisory committee on re-armament. Left is Sir George Beharall and, right, Sir Geoffrey Clarke

SETS PRICE

Dr. Schacht

Dr. Hjalmar Schacht, German Reichsbank president, who, during a trip to the British capital is reported to have informed the British Government that nations must buy German goods equivalent to any funds given Jewish refugees.

A Stronger Attitude

Look For New Phase In Dealing With The Dictators

Rome.—Informed sources expressed the belief that the deadlock in conversations between Prime Minister Neville Chamberlain and Premier Mussolini might result in a stiffened British attitude in future dealings with dictators and perhaps a new phase in the current European tension.

The talks were regarded as a crucial test of Mr. Chamberlain's "peace in our time" policy and the resultant disappointing deadlock that concluded the parity was regarded as a serious development in its relation to British foreign policy.

It was thought that the stalemate would particularly affect Britain's future dealings because of its impact on Mr. Chamberlain's appeasement program. They pointed out that the British statesman's "peace in our time" post-Munich statement has been the guiding principle to date of that policy.

It was also believed that Mr. Chamberlain's future policy will swing sharply towards a more militant manner of dealing with the totalitarian states and that the failure of the Rome talks also will lead to closer British alignment with France.

Indicted By Grand Jury

Three Counts In Smuggling Charge Against Famous Radio Star

New York.—Jack Benny, radio and screen star, was indicted by a federal grand jury on a charge of smuggling jewelry in conspiracy with Albert N. Chaperau, pseudo-diplomat and convicted smuggler, who has entangled other notables in customs violations.

The three counts in the indictment against them charge importing, illegally smuggling, transporting and concealing two gold clips and a gold bracelet—all diamond-studded.

The domestic value was placed at \$21,311 and the jewels were described out of court as gifts from Benny to Mary Livingston, his wife and partner in comedy. Date of the alleged smuggling was Oct. 7, 1937.

Advocates Advertising Campaign

Winnipeg.—A vigorous advertising campaign for wider distribution of fruits and vegetables was urged by delegates to the convention of the Canadian Fruit Wholesalers' Association. A committee was appointed to study the question of a co-operative advertising campaign.

Above are two of the prominent British business men appointed to act as advisers on the industrial advisory committee on re-armament. Left is Sir George Beharall and, right, Sir Geoffrey Clarke

Munitions Purchases May Be Entrusted To A Board Of Experts

Ottawa.—Purchases of munitions and armaments will be taken out of the hands of the department of national defence and entrusted to an expert group of competent businessmen if the recommendations of Mr. Justice H. H. Davis in his report on the Bren gun contract are implemented.

The report was tabled in the House of Commons. An indication was given the government would act on it. The speech from the throne said legislation would be introduced to create a "defence purchasing board."

Creation of this board was the only positive recommendation in the Davis report which consisted chiefly of a review of the evidence taken at a long inquiry during October and November, together with a number of findings and inferences from the evidence.

The judge found no evidence that any member of the House of Commons or the senate was admitted to any share in the contract or to any benefit arising from it or had any promise of benefit. The part played by Hugh Plaxton, Liberal M.P. for Toronto-Trinity, in negotiations leading up to the contract between John Ingalls Company, Limited, of Toronto and the department for the manufacture of 7,000 Bren light machine guns is reviewed in this connection.

"I think it is right to say," the judge wrote, "that there is no evidence that there is in the evidence any ground for supposing that the minister (Hon. Ian MacKenzie) or the deputy minister (Major-General L. R. Lafache) or any officer or official of the department of national defence was guilty of any act or corruption or anything in the nature of corruption."

No charges of misconduct were formulated against any particular person during the hearing, the commission stated. It is inexpedient to comment upon the evidence in respect of its bearing on the conduct of the individuals concerned.

"The facts are all in the evidence and as such by government counsel in opening their argument, so far as the facts are concerned, there are very few which are even in dispute."

The question as to whether armaments and munitions should be manufactured by private industry is one of government policy on which the commissioner expresses no opinion. Neither does he express a view as to whether competitive bids or tenders were practicable in the Bren gun case, although he indicates there are cases where they are not. That is a question of administration, the report said.

Where, however, an article is required on which bids are not possible and private manufacture is to be

used the heaviest responsibility falls on those responsible for the selection of the manufacturer.

"The question is: Were proper and efficient steps taken in this case to discharge that responsibility?" he wrote. "Upon the whole evidence that is a question for the government and parliament to pass upon."

A contract for production of Bren guns was made between the Canadian government and John Ingalls Company, Limited of Toronto, a company incorporated and organized by Major J. E. Hahn and associates.

Ottawa.—The British United Press reported from authoritative sources in Ottawa that the complete vindication of the Bren machine gun contract by a report by Mr. Justice H. H. Davis is likely to result in the placement of new and larger contracts for armaments by British and Canadian governments with Canadian firms.

It is believed the tenor of the report will overcome any hesitations regarding the placement of orders for war materials with private manufacturers, and it is also believed that several contracts that have been delayed pending the findings of the Davis commission will now be put through.

The same sources said that the Canadian orders will likely be supplemented with orders from the British government for further armaments.

Jews Are Blamed

Shots Are Fired At German Legation In Holland

Berlin.—Long-distance shots reported to have been fired at a German consular official's private home and a legation secretary's workshop in Holland caused an outburst of fury in German papers which unanimously assumed the culprit must be Jewish.

Parallels were drawn from the murder of Ernst vom Rath, German secretary in Paris by the 17-year-old Polish Jew, Herschel Grynszpan Nov. 7, and the Netherlands government was advised to see to it that its hospitality to Jews was not further abused.

The reports printed here said the shots were fired by a person or persons at a German consular's private home in Amsterdam Jan. 6 and at the work room of a secretary of the German legation in The Hague January 9.

(An Amsterdam despatch said the German minister had called attention to the Netherlands foreign minister to the shots, and an investigation had been promised.)

A propaganda ministry spokesman said it was possible further steps might follow the German envoy's representations to the Dutch authorities.

Further Expansion Of Defence Forces Is A Major Project

Ottawa.—Further expansion of Canadian defence forces to guard against continued threats to world peace and establishment of a defence purchasing board were forecast in the speech from the throne as major projects for the present session of parliament.

Legislation will be introduced to establish a defence purchasing board with power to purchase equipment for the defence services and to ensure that, where private manufacture is necessary, profits in connection with such are fair and reasonable and the public interest is protected," the speech read.

The Canadian Press learned later the government contemplates a board of three or four members chosen outside the national defence department and perhaps outside the government service altogether. Men of wide commercial experience will be sought for the board and, if possible, one or two members will have special knowledge in the business of manufacturing armaments.

Particular emphasis will be laid on air defence, the speech said, in forecasting continued pursuit of the present policy of modernizing and expanding the armed forces of Canada. It is believed almost all the new appropriations for defence will be devoted to the air force and the present personnel of roughly 9,000 officers and men may be doubled while additional equipment, including new and

fast planes, will be purchased.

It is also likely that the defence estimates will make provision for an expansion necessitated by the training in Canada of flyers for the Royal Air Force, negotiations with regard to which are understood to be approaching completion.

In the house, after the colorful opening ceremonies, there was a brief but interesting session when four new members were introduced, including Hon. R. J. Manion, successor to Rt. Hon. R. B. Bennett as Conservative chieftain and leader of the official opposition.

Prime Minister Mackenzie King crossed the floor of the chamber to congratulate the new leader as soon as he took his seat and a little later paid Dr. Manion a warm tribute in welcoming him back to the house as leader of the opposition.

In reply Dr. Manion referred to the happy personal relations that had always existed between him and members of the house of all parties. Customarily new members are introduced in order of their election which would have given first place to Peter Bercowitch, Liberal member for Montreal-Cathier—"Out of court" to the house of commons. Dr. Manion was given precedence with the ready approval of the others.

J. E. Matthews (Lib., Brandon) and Karl Komuth (Cons., Waterloo) were others of the quartet of new members introduced to Mr. Speaker and seated.

Life Digest (Australia): After a man has slept on a cheap mattress in a cheap country hotel, he can realize how straw could break a camel's back—that's if he could find a cheap country hotel.

"The Voice of Coleman"

-- EDITORIAL PAGE --

THE COLEMAN JOURNAL

Published Every Thursday at Coleman, Alberta. Membership in Canadian Weekly Newspapers Association and Alberta Div. C.W.N.A.
H. T. Halliwell, Proprietor.

NOTES AND COMMENTS

SINCE the writer purchased The Journal in 1927, it has been our constant aim to improve the paper and make it truly representative of the town. Our ambitions have not materialized as rapidly as we have wished, but still the goal shines as brightly as ever. The conditions that prevailed prior to 1929 are changed owing to what is generally termed "the depression," which necessarily curtailed newspaper revenues as it did in all other enterprises.

PUBLISHING a newspaper is in a class by itself. A retail merchant sells goods on which he sets a price above the wholesale cost to leave a profit after providing for selling costs. A newspaper sells one thing only—white space. The goodwill it may create is an asset of an intangible nature; you cannot set any value on it and sell it to individual purchasers at a profit. Yet it cannot thrive on goodwill only. Its revenue is derived from the sale of advertising space and subscriptions.

IT IS no idle boast or made in a bragging spirit when we state that Coleman would miss the publication of a weekly newspaper. It reflects as much as possible the community activities, giving publicity, usually free, to community enterprises, and the opportunity to all to express their individual opinions on matters of general interest.

IN COMPARISON with the amount of money invested in the average retail business concern, a newspaper, even a weekly newspaper such as The Journal, has to tie up far more capital and gets less return than in any other business. It also requires trained men for its mechanical production who serve several years apprenticeship, while the duties of those engaged in its news work is not confined to an eight hour day as in other industries.

IT IS pride in the paper that urges every worthwhile newspaper worker, from the delivery boys to the editor, to try and make each week better than the preceding. We are not unmindful of the fact that its mistakes are open to the world to criticize and lambast, but it is all part of the day's work as far as a newspaper is concerned. A newspaper that is not occasionally the subject of vigorous criticism is a lifeless thing, and in truth is not fulfilling its true mission in interpreting or reviewing that great privilege of a democratic people—public opinion.

FAITH in our newspaper venture urges us to provide for better equipment and wider expansion, so that The Journal may widen its sphere of influence. From the run-down equipment which we acquired in 1927, we have managed to make improvements from time to time, as rapidly as finances would permit. It has necessitated the investment of money received from sources outside of the earnings of the paper, with the hope that as time improves so would our faith in Coleman be repaid.

AND the end is not yet, by any means. In fact, there is never any end to the improvements a newspaper is called on to make. It is a highly competitive business, for people demand

usually far more than the revenue will provide for. But we go on with optimistic fortitude and enthusiasm in the hope that eventually we will build up a newspaper plant and service which will do full justice to this community and of which it will at least have reasonable pride.

"THE people needs a chief, made resplendent by fame and victory; it does not want theories and governments, the phases and the oratory of the ideologues. Give the masses a toy! They will play with it, and allow themselves to be led—provided always that the leader is adroit enough to hide his true aims! Here in Italy it is not necessary for me to be so circumspect."

Most people on being asked to name who spoke those words would come to the conclusion it was Mussolini. But they would be wrong. They were spoken about 130 years ago by the famous general and emperor of the French people, Napoleon. Human nature in the mass changes very little throughout the centuries. We may acquire a little more polish from education, but the barbaric instinct just lies dormant.

NO MATTER what social welfare legislation or relief measures may be instituted, they are of little help to the individuals who lack the initiative or energy to try and solve their own problems. Too many lean on governments, and there has been a tendency towards too much paternalism, encouraging laziness and thriftlessness on the part of those who claim the world owes them a living. All relief monies are paid by those who work, as are all taxes levied by governments.

Open-Air Rink Mecca for Children

Healthy Bodies and Clean Minds Fostered by Free Skating in Flumerfelt Park.

During December an open-air rink was laid out for the children, with dressing rooms adjacent. The site selected is in an ideal location in Flumerfelt Park, a tract of wooded land adjoining the townsite set aside many years ago by the late President Flumerfelt, of International Coal & Coke Co., Ltd., to be used only for recreational purposes. The tennis courts are also situated in the park, through which Nez Perce creek runs on its way to join with the Crows Nest, or sometimes called Old Man River.

The need for an additional rink arose from the continued use of the Arena for hockey games and practices, allowing little time for the younger people. The expense was borne by the ratepayers and with concessions made by Coleman Light & Water Co., enabled the project to materialize.

At night particularly the rink presents an attractive scene of animation. The dark green of the pines and the glistening snow, with the electric lights of the rink contrasting with the dark background, together with the joyous shouts of children, make it appear as a fairyland, and brings home to ratepayers the benefits that accrue to the young people in clean healthy exercise and the opportunities to develop their ability as skaters

Renewal Subscriptions

Every week The Journal receives renewal subscriptions from subscribers who in past years have lived here. Among those received this week is the renewal of Mrs. D. Davies, of Edmonton, whose husband was pit boss at International mine many years ago, before he operated a mine of his own in northern Alberta.

C.N.P. Bonspiel Starts Monday at Bellevue

Mild weather caused postponement of the C.N.P. Bonspiel at Bellevue last Monday. Bellevue officials have now set the opening date for Monday, Jan. 23, and are hoping for a large entry from all Pass towns.

From Coleman it is expected only three rinks will attend. D'Appollonia, Ledieu and Jim Kerr being the skips. Bellevue has entered seven rinks and that will probably be the largest entry from one town. Blairmore will probably have four or more rinks in the 'spiel. Wilson of Fernie, Allison of Pincher Creek, and Greenway of Lethbridge, all veterans of the bonspiel, will most certainly be on deck.

Visitor From New Zealand

Rev. G. W. Davidson, of Palmerston, New Zealand, is spending a few weeks the guest of his brother, A. L. R. Davidson, and Mrs. Davidson, having arrived last Saturday. He came to Canada via the Hawaiian Islands and Vancouver, and from there went to Mexico, coming north after a few weeks in the south, to New York, thence to Coleman. It is his first visit to Canada, and his first meeting with his brother for about twenty years, who formerly lived in New Zealand.

Little Activity In Municipal Elections

Under an amendment of the Towns Act, only two councillors are elected each year instead of three as heretofore. The change was made by the provincial government, though the reason is not explained. To decide of the three councillors, whose time expired this month, should remain on the council, the names of Plante, Chapman and Borrowers were placed in a hat and the one drawn, Councillor Plante, remains for one year.

The nominations will be received the first Monday in February, with election one week later. Up to the present no action has been taken by ratepayers to place candidates in nomination for council or school board.

Correction

\$1,000 towards an artificial ice rink is to be given by the Grand Union Hotel, Coleman, not by Mr. J. B. Cross, of Calgary, incorrectly stated in last week's Journal. This is a fine start and is encouraging to the promoters.

Miss Patricia Eileen Tierney, of Michel, is visiting at the home of her uncle and aunt, Mr. and Mrs. D. M. Waddington.

IN MEMORIAM

IN LOVING MEMORY of Nancy Brown, who passed on January 22nd, 1932.

In her innocence and beauty,
With her soul as pure as snow,
She is nestled on the bosom
Of the God we love and know.
 Lovingly remembered by Wilma Halliwell, 11148, 52nd St., Edmonton.

Surfaced Highway Promised For Pass In 1939

At a meeting of merchants to hear an explanation of treasury branches, by Mr. Baker, Mr. Duke, M.L.A. for Rocky Mountain, was called upon by Mayor Pattinson, chairman of the meeting, to give a report of his progress in endeavoring to have the main highway through the Crow's Nest Pass hard-surfaced.

Mr. Duke stated: "In November Mr. Fallow, in his office, gave me a verbal agreement that in the summer of 1939, if he could not hard-surface all—in part it shall be done."

Following this statement, Mayor Pattinson thanked Mr. Duke for presenting the condition of the Crow's Nest highway to Mr. Fallow, minister of public works, and urged him to continue the struggle, and that if the road from Pincher Creek to Crow's Nest is not hard-surfaced, then at least the road from Coleman to Maple Leaf should be done.

One wit at the meeting remarked that if something is not done shortly to improve the Pass roads, the time is coming when citizens would be buying airplanes instead of cars.

REVIVAL SERVICES CONTINUE AT NAZARENE CHURCH

The Special revival campaign at the Nazarene church is still going on. Services are being held nightly in the church at 7:30 p.m. The Rev. Bailey (B. H.) from Drumheller, is the evangelist, preaching the old-fashioned gospel as well as singing special numbers in song. Mr. Swarth is also doing some special solo work. The public is cordially invited to attend these services. Come and bring your friends. The last meeting of the campaign will be held on Sunday night. Rev. Bailey will be leaving on Monday, but Mrs. Swarth will remain to assist Miss Mooshian in the work until the new assistant arrives in town. Services will be held as follows next week:

Tuesday night at 7:30 p.m.—Bible study. Last lesson on Book of Psalms.

Friday evening at 7:30 p.m.—Prayer meeting.

Sunday school at 11 a.m.
Strangers and visitors are always welcome.

MINERVA CHAPTER No. 41 Minerva Chapter Installs Officers For 1939

At the regular meeting of Minerva Chapter No. 41, Order of the Eastern Star, the following officers were installed by retiring matron, Sister H. E. Gate, assisted by past matron, Sister Thomas, as marshal, and past matron, Sister McLeod, as chaplain, with Sister Rose as organist:

W.M. — Sis. Elizabeth McGregor
W.P. — Bro. Joseph Emmerson
A.M. — Sis. Isabella Walker
A.P.

Secretary — Sis. Mary B. Thomas
Treas. — Sis. Mary M. Dewar
Conductress — Sis. Sadie Halliwell
Ass. Conductress — Sis. Jeanie Irvine
Chaplain — Sis. Marjory J. McLeod
Marshal — Sis. Lillian W. Rippon
Organist — Sis. Catherine Garner

Adah — Sis. Mary M. Dewar
Ruth — Sis. Mary M. Dewar
Eather — Sis. Janet Jackson
Martha — Sis. Emily Short
Electa — Sis. Janet Cooke
Warder — Sis. Elsie Shields
Sentinel — Sis. Ruth Blower

Following the ceremony W. M. Sister McGregor presented the installing officers with flowers, and P. M. Sister Gate with her jewel as a token of appreciation for her services during the year.

Several visitors from Blairmore and Hillcrest were present. The chapter looks forward to a very successful year, with several candidates to be initiated.

The Journal mentioned it had received cards from distant readers and friends, but omitted to mention that of Don MacNeil, who with Mrs. MacNeil is now living at Witika Falls, Texas. Thanks for the memory. He was the Liberal candidate in the 1935 provincial election.

Philadelphia Bulletin: Engineers figure that at the present rate of production the nation's copper deposits will be exhausted in 40 years. That must be why Uncle Sam is saving up all his gold.

Industry

Commerce

SEVERAL MILLIONS OF DOLLARS

were spent by Canadian people in 1938, and in previous years, in purchasing coal and coke from mines outside of Canada. Thousands of Canadian miners were on short time work, and some on relief, whereas if all the coal Canadians used had been purchased in Canada, not only mineworkers would have benefitted, but all who are connected with the handling of coal.

"Canadian Coal For Canadians"

should be the slogan for all and every individual can help to spread the gospel for increased employment for Canadian mineworkers.

By-Law Should Be Enforced, State Retailers

The Journal has been approached by some retailers to arrange a meeting of the Board of Trade to suggest to the council that the provisions of the by-law governing the hours during which stores are open for business be more rigidly enforced.

It is stated that there are some offenders, who supply goods after hours, and that this constitutes not only unfair competition, but helps to break a law which was instituted for the benefit of all retailers.

The matter should be brought to the attention of the council by the local branch of the Retail Merchants Association, if such is functioning, otherwise there is no doubt that if the Board of Trade is officially requested to act, it will do so.

There should be sufficient observance of the ethics of business among retailers to make such action unnecessary, but no matter what laws are passed, it frequently happens someone will break them. If the by-law has any "teeth" to it, it would be well to see that it is enforced. Such action might prove an effective remedy.

"Snow White" Was Delightful Entertainment

Walt Disney's famous film feature, "Snow White and the Seven Dwarfs" delighted capacity houses at the Palace over the week-end, young and old being entranced by the beauty and simplicity of this fine technicolor production which has gained world-wide distinction. It is a masterpiece in an industry that has produced many wonderful pictures, but the added marvels of Disney's work is that instead of the cast being living people, they are hundreds of thousands of pictures each separately drawn and colored and merged into a full-length feature which gives the impression of being living people who are depicting the fairy-like story of little people who appear as lovable mischievous characters devoted to the safety and well-being of their princess, "Snow White." Particularly effective was the reproduction of sound accompanying the picture, and the actions of the animals, birds and insects which are as important a part of the picture as the dwarfs and the principal characters, were highly entertaining. Even the slow moving tortoise, which would laboriously crawl up a flight of stairs to be unceremoniously kicked out by the dwarfs rushed out pell-mell in fright, earned a well-merited share of the laughs that abound in the picture.

Cole's theatres deserve commendation for bringing this picture to their patrons, who were unanimous in their praise.

Mr. and Mrs. A. A. Fraser and daughter will leave Coleman shortly for Coal Valley, near Edmonton, where Mr. Fraser has received employment. For the past two years he has been surveyor for International Co. Members of the Masonic lodge are holding a dinner prior to their meeting on Friday evening in honor of Mr. Fraser who is a member of Summit Lodge.

Scottish newspapers reaching Coleman the past few weeks have been giving much publicity to Trail Smoke Eaters and their trip to Glasgow. In one paper, the Sunday Post, seven of the players have their pictures published. The description starts with the question, "ain't their names picturesque?" Duke Scodellaro, Benoit, McCready, Dame, Morris and Brennan are the players shown.

Local News

Mr. and Mrs. Peter Smith returned Tuesday morning from Bowden, where they attended the funeral of a relative.

Messrs. A. F. Short, Frank Abousafy and Fred Guerard motored to Calgary on Saturday and witnessed the Canadians-Turner Valley hockey game.

Badminton club members played at Michel on Sunday, the following being included in the party: Dr. and Mrs. Claxton, Miss Milley, Jean McDonald, Edna Fairhurst, Mae Bell, Muriel Naylor, Mrs. Joe Spievak, Richard Shone, Reg. Jones, R. F. Barnes, Dr. Asello and Tom McGovern.

Mayor and Mrs. George Pattinson and Mrs. H. T. Halliwell were Lethbridge visitors last Saturday, when Mr. Pattinson took delivery of a new Dodge car purchased through R. D. Alexander of Sentinel Motors, Coleman. Another recent Dodge purchased through the same agency is Mr. W. L. Rippon.

Mrs. Miller Fleming was hostess to a number of friends on Friday evening at a kitchen shower in honor of Mrs. Nelson Fleming. Prize winners at whist were Mrs. Fred Brown and Miss Isa Ramsay. Following a dainty luncheon the guest of honor was presented with many useful kitchen utensils for which she gave thanks.

Mrs. Matthew Wilson was hostess at a miscellaneous shower held at her home on Wednesday, Jan. 11, in honor of Mrs. Nelson Fleming, (nee Margaret Gillies) recent bride. The thirty guests present played whist, prize winners being Mrs. Sam Gillies, Mrs. A. Anderson and Mrs. Wm. Wilson. Following whist the guests sat down to a dainty luncheon, the tables being beautifully decorated with mums. The honored guest received many beautiful presents for which she gave thanks.

Journal Office

Young Man Committed for Trial on Serious Charge

Arising From Robbery at Chas. Nicholas' Store, Lawrence Cyr Faces Charge of Having Alleged Stolen Property in Possession.

"In view of the evidence, I will commit you for trial," was the decision of Magistrate J. W. Gresham after a six-hour session here last Thursday. The accused was Lawrence Cyr, 21 years, placed on preliminary trial for having in his possession property, allegedly knowing it to have been stolen, the warrant for his arrest having been sworn out by Town Constable W. Antle, on Dec. 15.

His arrest was the sequel to a robbery at the store of Charles Nicholas in the early morning of November 15, when a considerable quantity of clothing and other goods were stolen. Some of the loot was cleverly traced by R.C.M.P. and town police, being found in a cache at a spot known as Fan 98, on the property of International Coal & Coke Co. Ltd., nearly a mile south of Coleman. The goods on which Cyr was charged were found under a search warrant at the home of his parents, with whom he lived, in the east side of Coleman. They included a pair of high boots, a work shirt, a pair of Leckie shoes, and a shoe box. All identification marks of manufacturers that might help to trace their origin had been obliterated.

It was on this point that F. O. McKenna, Pincher Creek barrister, based his defence of accused, stating that the prosecution could not prove these articles had been stolen from Nicholas store. His cross-examination of witnesses Charles Nicholas, proprietor of the store, and his daughters Annie and Emily, and son Nick, centred on this point. Though they swore under oath that they sold goods identically the same as the stolen goods, they could not positively say they had been stolen because of the absence of the manufacturers' trade marks. Mr. Nicholas stated that the work shirt could be identified as coming from his store because of a peculiar pin mark which he used in marking his goods. Cross examination challenged him to swear it was taken from his store, to which he replied that no matter if he did say it was, the defence would argue it was not.

The prosecution was conducted by R. F. Barnes, Coleman barrister. Witnesses included in addition to the Nicholas family, Sergeant J. A. Cawsey, and Constable R. C. Hawkins, R.C.M.P., Constable Antle of the town police, and Mrs. Cyr, mother of accused. The latter was not called on for evidence.

The robbery, it will be remembered, was made by battering down a door to the basement at the rear of the store, by which access was made to the main floor. Goods of all descriptions had been taken, packed in several suit cases, which were among the recovered loot. The robbery was discovered by the proprietor when he arrived at the store to open between 7 and 8 a.m. on Nov. 15. He found the place in disorder with clothing and hats strewn on the floor.

Cyr will likely appear at Macleod assizes in March. He is charged under section 399 of the Criminal Code. He may either elect for speedy trial or tried by jury.

Mr. Roy Taylor, M.L.A. was a spectator at the Canadians-Lethbridge hockey game on Monday. Coleman junior hockey club will hold a dance in the community hall on Friday, Feb. 3. If it is advertised in The Journal, it is thoroughly dependable.

A proclamation was published in the Canada Gazette fixing May 20 as the date on which the birthday of King George is to be officially celebrated in the Dominion this year.

Young Quebec newboys will receive schooling and accommodation in their spare time. A home for newboys was opened under direction of the Christian Brothers.

Scotland Yard is working on television for police purposes. Secret televising with long-range cameras will enable police officers in rooms miles away to watch the movements of suspects.

Seventy representatives of the international railroad labor organizations in Canada met to consider the whole transportation problem in Canada with a view to formulating a definite policy for their united action.

Extension of Alberta into the northwest territories with provision of new highways into the north country were discussed at Ottawa by Hon. W. A. Fallow, Alberta public works minister, and Hon. T. A. Cregar, Dominion minister of mines and resources.

Place For Big Crowds

British Miles Ahead When It Comes To Sports Events

Ninety-one thousand people saw Sunday's California play Duke in the Rose Bowl game at Pasadena, on New Year's day. But 120,000 people (with some 30,000 turned away) saw Rangers defeat Celtic in Glasgow on New Year's day. When it comes to crowds at sports events, says the Ottawa Journal, the British are miles ahead of everybody.

The optimist has his place. He makes the pessimist seem a less terrible fellow than he otherwise would.

Congress appropriated \$10,000 for bombarding the clouds in an effort to bring rain in 1931.

You're as old as you look and as young as you feel, but some are deceived by their looks and feelings.

FIGHT COLDS AT THEIR SOURCE

At the first sign of a cold, treat it in a simple, direct, and time-proven way. Insert a little Mentholatum well up the nostrils. Guaranteed to bring quick relief or money back.

Claims Important Discovery

Eminent Scientist Believes He Has Cure For Sea Sickness

Mal De Mer, commonly known as sea sickness which has baffled medical science since man first took to travel by water appears at last to have been conquered. An eminent American scientist who is a graduate of Harvard medical school, Dr. Walter M. Boothby, of the Mayo clinic, Rochester, Minn., seems to have mastered the malady which annually makes life miserable for thousands of travellers and prevents countless others from making desired ocean voyages.

This became known following the return of Dr. Boothby from a West Indies cruise on the Canadian National steamship liner "Lady Nelson." Dr. Boothby told of experiments which he and the ship's surgeon, Dr. Richmond Goulden, had conducted aboard the Lady Nelson during her cruise of the tropical seas. The experiments the medical men said prove that administration by inhalation of 100 per cent. oxygen brought relief to three passengers suffering from sea sickness, brought them from their beds, ended that dizzy feeling and permitted them to retain food.

Not 100 per cent. efficient as yet the discovery Dr. Boothby said, is suggestive of a practical relief for sufferers from sea sickness. A new type of inhalation apparatus known as a nasal oxygen mask developed by Dr. Boothby was used.

Road To North

Will Construct 300-Mile Road To Mining Area In Alberta

Completion of arrangements with the federal government for construction of a 300-mile road leading to water routes into mining areas of the North West Territories was announced by Premier Albertbert.

The road will extend from Melville, 325 miles northwest of Edmonton in the Peace river country, to Hay River, 300 miles further north on Great Slave lake in the North West Territories. An aerial survey to determine the most feasible route will be made.

Cost of the 225-mile section of the road within the boundaries of Alberta will be \$250,000. Of this amount, the federal government will pay \$5,000 and the provincial government \$195,000. The approximate 75 miles of the road in the North West Territory will be built entirely by the Dominion government.

Subversive Elements

Would Deport Those Who Are Not Satisfied With Democratic Government

Foreign-born, unnaturalized residents of Canada who are dissatisfied with the Canadian form of government should be deported, the London unit of the Canadian Corps Association was told at London, Ont., by Karl K. Komuth, M.P. for Waterloo, South.

Canada's initial step in taking care problems relating to youth should be a purge of subversive elements in the democratic structure, he said. He said people in Canada "were waving the swastika at the very height of the European crisis."

In some parts of Great Britain, "dragon's blood," ordinarily used for dyes and varnishes, still is popular as a love potion.

Ireland will send high commissioners to Australia, Canada, and South Africa.

SHIRTLAIST CHIC FOR MATRONS

By Anne Adams

See what happens when smart, slim lines get together—An Anne Adams shirtdress that flatters the flatter figure in the most charming way! Older women too will like this "yoke" style with button front—not only for its trim smartness, but also because it can be donned with the greatest of ease. The making is very showing in plain black and white just what to do. You have choice of two—becoming collars, and two sleeves—short or a laundress-like cotton or smooth.

Pattern 4835 is available in misses' and women's sizes 16, 18, 20, 34, 36, 40, 42, 44, 46 and 48. Sizes 36 takes 3 1/2 yards 64 inch.

Send two cents (20c) in coins (stamps cannot be accepted) for the Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

Learned New Trick

Magician Found How Rabbit Actually Disappeared In Act

Blackstone, the magician, learned a trick in Boston. Displaying his legendeum at Children's hospital, the magician pulled off an act in which a rabbit, after being pulled from a hat and wrapped in newspapers, disappeared completely—so completely that Blackstone couldn't find it. He finally left without it. A little later Bobby McConnell, eight, of Brookline, pulled the rabbit out from under the covers of his bed. The children named it Hiram, but nurses deemed it could not live in the ward.

The horns of the Rocky Mountain sheep show the animal's age through their annual growth rings.

STOP Scratching
It RELIEVES ITCHING IN A Minute
From the most stubborn itching of eczema, hives, poison, athlete's foot, and other skin diseases, quickly yields to Dr. J. C. Williams' ointment, which is the only one that does not irritate the skin. Clear, granular and odorless—does not stain. Stop the itch before it starts. A 30-cent bottle, all drug stores, grocers, etc. Ask for Dr. J. C. Williams' Prescription.

Highways in Holland

Roads Being Built But Canals And Waterways Are Preserved

Between the principal towns of Holland, roads are now in course of construction (writes a correspondent of The London Times) which will carry the heaviest weights and allow of a speed up to 80 miles an hour or more without danger. At the same time the old canals and waterways are not only being preserved but brought up to date, so that along the high-speed vehicles can be seen the slow-moving barges and sailing boats laden with a thousand tons of coal or the week's household shopping.

Up to a comparatively short time ago the Dutchman way of travelling usually went by water, both because it was most convenient and because he preferred it. Since the beginning of the present century roads have developed rapidly, so that at the present time there are nearly 20,000 miles of paved roads, apart from the streets of the towns and villages, and only about 5,000 miles of waterways with the addition of 200 miles of "river mouth" or esports.

With Germany increasing her facilities for water traffic, and particularly with the cutting of the great Rhine-Danube Canal, these Dutch waterways are acquiring a new importance.

Over these various roads and bridges travel no fewer than 200,000 motor cars registered in Holland, besides many coming from Germany, Belgium, and other countries, and nearly 3,250,000 bicycles. Horse traffic forms a very small percentage of Dutch traffic; except for farm wagons and a few vehicles engaged in small businesses requiring frequent stoppages at short distances, it is gradually disappearing. Confined mainly to towns and to the farms, it was recently estimated at about four per cent. of all traffic.

Through the full length of the road on each side is a "parking lane" (in contrast to the German roads which have frequent motor parks at regular distances), and outside these, usually at a slightly lower level, cycle paths seven feet wide. In certain districts also there are ways for "rural traffic," that is, slow-going loaded farm wagons, etc. Wherever possible cycles and other roads are avoided by the erection of bridges.

The Time Signal

Jeweller's Method Of Setting Chronometer Moved In Circle

Now the correct time is so frequently announced over the radio, pride in the accuracy of watches is perhaps an old-fashioned trait, but there still are a few persons who become seriously worried when they find their timepieces wrong.

One of these was recently in a Canadian city where a unit of the permanent militia is stationed, and was startled to find his watch a half-minute out when the noon gun was fired. Instead of setting his watch and going directly on his way, he went to the gunner and asked him where he got his time. The answer was that each day the gunner's clock was set by comparison with a local jeweller's chronometer. As the jeweller's shop was near at hand, the inquirer dropped in there to set his watch by the chronometer. Finding the same half-minute error in his own watch, he said: "By the way, I suppose you get your time from the radio signals?"

"Oh, no," the jeweller answered, "I set the chronometer every day when the noon gun is fired."

Asking For Special Stamp

Poultry Men Want To Commemorate World's Congress At Cleveland

Poultry representatives of the United States and Canada will meet in Cleveland, Ohio, to make plans to ask the United States Government for a special stamp to commemorate the holding of the World's Poultry Congress at Cleveland July 28 to Aug. 7, 1932.

The Congress' executive of Canada, since of co-operating with the American executive for staging the 1932 meeting. It will be the first time the two continental congresses have been held in the United States.

More than 96 nations of the world have been invited, and up to the present more than 60 of that number, including Canada, have made preparations. The Congress will be well represented, it has been announced by Fred C. Elford, the Dominion's special poultry commissioner.

Issuance of a special stamp requires action by the United States Congress, and a special stamp committee of the Cleveland congress executive is in touch with government officials.

Now with new roads are being made with footpaths for pedestrians and tracks for cyclists, why not bridges for chickens?

SUNDAY SCHOOL LESSON

JANUARY 22

PETER DENIES HIS LORD

Golden text: Let him that thinketh he standeth take heed lest he fall. I. Corinthians 10: 12.
Lesson: Luke 22: 31-34, 54-62.
Devotional reading: Psalm 51: 1-10.

Explanations And Comments

Peter's Fall Foretold. Simon, Simon, behold, Satan asked to have you, that he might sift you as wheat; but I will make supplication for thee, that thy faith fail not; and do thou, when thou hast turned again, establish thy brethren. And he said unto him, Lord, with thee I am ready to go both to prison and to death. And he said, I tell thee, Peter, the cock shall not crow this day, until thou shalt thrice deny that thou knowest me.

And they seized him, and led him away, and brought him into the high priest's house. But Peter followed afar off. And when they had kindled a fire in the midst of the court, and the midst of them, Peter sat and made seeing him as he sat in the light of the fire, and a certain maid seeing him, said, This man was with him. But he denied, saying, I know him not. And after a little while another saw him and said, Thou also art one of them. But Peter said, I know him not. And after the space of about one hour another confidently affirmed, saying, Of this man also was with him; for he is a Galilean. But Peter said, Man, I know not what thou sayest. And immediately, while he yet spake, the cock crew. And the Lord turned and looked upon Peter. And Peter remembered the word of the Lord, how that he said unto him, Before the cock crow this day thou shalt deny me thrice. And he went out, and wept bitterly.

The only criticism that Jesus passed upon Peter's conduct was conveyed in a look, but that look of sorrowful love seems almost to have broken Peter's heart.

Simplicity Abhors The Repulse

Only Necessary Changes Being Made For Royal Trip

Simplicity will be the keynote in the royal quarters in H.M.S. Repulse, which will carry the King and Queen on their visit to Canada in May. At their Majesties' personal request, the accommodations will closely approximate the normal officers' quarters of a warship.

At the invitation of the admiralty a group of newspaper editors inspected the big battle cruiser, aboard which 900 men are busy with the task of getting the vessel ship and span for its epochal mission.

The royal bedrooms in the ship will be the unconnected cabins usually occupied by the captain and senior officers. The king's dining room is situated in the captain's quarters. It has one porthole. The day cabin overlooks the at 15-inch gun turret while the office His Majesty will use during the voyage at present serves the ship's administration officers and like the other rooms is being readjusted without any lavish appointments being installed.

Becoming Lost Art

Educator Blames Bad Spelling And Figuring On Modern Teaching

The three R's, an educator laments, are becoming a lost art in America. Paul Moser, of Chicago, head of a business college and a past president of the National Commercial Teachers' Federation, which held its 41st annual convention in Chicago, said:

"It is no longer the thing in education to teach reading, writing, and 'rithmetic' for their own value, and as a result we are becoming a nation of poor spellers who can't write legibly or add."

"One reason why people are becoming such poor spellers is the way they are now taught to read as children. No longer is the alphabet drilled into children. They are taught to read sentences at a glance. In this way, they miss the letters in a word."

A Fashionable Ailment

Many People These Days Seem To Be Suffering From Allergy

At least 10,000,000 Americans suffer from some form of the new fashionable ailment, known medically as an allergy, according to an estimate made by Dr. Theodore D. Beckwith, professor of bacteriology at the University of California. Allergy is designated in the statement as being a condition of hypersensitivity to certain foods, drugs, animals, plants, climatic conditions and emotional disturbances. Hives, hay fever, asthma and sick headaches are among the ailments suffered by allergic persons and the condition is often accompanied by an offending substance.—From Science.

Wife (learning to drive): "But I don't know just what to do?" Husband: "Just imagine that I'm driving."

The Dominican frog skips the tadpole stage entirely. It develops inside a crystal-like egg and emerges as a full-fledged frog.

Ease
CHEST
COLD
misery

First message throat, chest, and back with Vicks VapoRub at bedtime. This relieves the distress.

Then, to make his lungs warm and moisten and soothe the throat, use Vicks VapoRub at bedtime. This relieves the distress.

Long after restful sleep comes, VapoRub keeps on working—loosens phlegm, eases muscular soreness or tightness, clears the passages—checks tendency to cough—relieves the worst of the cold.

INTEREST
by DR. J. W. S. McCULLOUGH

THE SCIENCE OF HEALTH

The ever-increasing public interest in the progress of those sciences calculated to conserve health was climaxed during the recent holiday season when meetings were held in many parts of America by scientific bodies. It has been estimated that during that week, the newspapers of America actually published more about biology and physics, electron-microscopy and mental diseases than they did about Hitler and Mussolini.

Before the American Association for the Advancement of Science met at Richmond, Va., medical men told what progress they were making in understanding the action of vitamins and hormones on mind and body.

One of the outstanding revelations was in the comparatively new science of Chemo-therapy. It was a discovery of Dr. Charles F. Code of the Mayo Foundation, and it was a discovery of allergies. An allergy is a condition of unusual or exaggerated susceptibility to a substance which is harmless in similar amounts for the majority of members of the same species—for example, in some persons affections are brought on by eating foods that are harmless for the majority of people. In some breathing certain dusts. Until recent times these allergies baffled medical men. Then important steps were taken when by skin tests it became possible to determine to just what substances anyone was allergic.

Even this, however, did not reveal the mechanism of allergy and it is this which Dr. Code's discovery has been. As a result of his study of a special type of white blood cells, it is claimed that there is now a good prospect of the doctor being able to deal scientifically with the millions of people who cannot eat this or that without breaking out into a rash.

Editorial Note: Readers desiring the complete set of Dr. McCullough's articles on this new science may secure same by writing to: The Health League of Canada, 105 Bond St., Toronto, Ont.

All Became Premiers

Dr. Manion is the ninth leader of the Conservative party in Canada since Confederation. All of his predecessors became Prime Ministers. On the other hand, says the Brockville Recorder and Times, the Liberals have had only four leaders during the same extended period, and the only one of the four who did not attain office was the Hon. Edward Blake.

MUSCULAR RHEUMATIC PAINS—ACHES

It takes more than "just a salve" to bring relief to a "counter-irritant" like good old Musterole—soothing, warming, penetrating the local congestion and when rubbed on the aching spots, stiffness, lameness, soreness and when in plaster for 24 hours, recommended by many doctors and nurses. Regular, Chloroform, in three strengths: Musterole, Musterole, Musterole, Musterole. All druggists, 40¢ each.

Social Crediters May Have Own Bank in Pass

Social Credit Members Canvassing Merchants to Sign "Memorandum of Agreement."

About forty merchants from Coleman and Pass towns met in the council chamber on Wednesday afternoon to hear Mr. C. M. Baker, member of Clover Bar in the Alberta legislature and secretary of the Alberta Social Credit Board, speak on treasury branches in Alberta.

Specimen copies of "Memorandum of Agreement" between merchants and the provincial treasurer were distributed to all and Mr. Baker gave a detailed explanation of its twelve clauses. Before explaining the contract, he mentioned that 90 per cent of the merchants in the territory covered by himself and colleagues had signed the contract.

Blank vouchers will be given to all persons depositing a sum of money in the treasury branches. Providing the purchaser purchases one-third of his total purchases in Alberta-made goods, the provincial government will award him a three per cent bonus, it being credited to his account in the treasury department. The merchant is enabled to get rid of these vouchers by depositing them in the treasury branch and writing out cash order forms to the wholesalers, or paying the government these cash order forms in lieu of cash for taxes, telephone bills, liquor, etc.

Customers not paying their bills once a month will not be credited with bonus.

To the merchant there would be no cash bonus on his money lying in the branch, his bonus would be in increased business.

Regarding saving accounts, the government were offering two per cent on money lying in the treasury for six months, and two and a half per cent on accounts lying there for a year or more.

Mayor Pattinson, as chairman, thanked Mr. Baker for his explanation of treasury branches. A public meeting will be held in the town hall on Monday night, when Mr. Baker will give an address. Mr. Duke will also be present.

The speaker stated he would interview merchants to find if they would sign contracts to deal with the Social Credit banks. He expected there would be in the Pass for a few days.

In Memoriam

BROWN—In loving memory of our beloved daughter, Nancy, who passed away on Jan. 22, 1932. Ever in our thoughts.

"For of such is the Kingdom of Heaven."

Mr. and Mrs. G. A. Brown and Olive.

HOLLY—In loving memory of our beloved daughter and sister, Betty Holly, who passed away on Jan. 19, 1938.

Ever remembered by her mother and sister, Mrs. W. Holly and Sonia.

The Churches

ST. ALBAN'S CHURCH

Rev. J. R. Hague, A.Th., Incumbent
Third Sunday After Epiphany.
2 p.m.—Sunday school.
7 p.m.—Evensong and Sermon.
Read St. Mark 1:14-21.

Jesus tells us that these were the opening words of His ministry—"Repent ye, and believe in the gospel" or, as we should say today—"Change your way of looking at life and believe in the good news." Let us first say what repentance is not. Repentance is not remorse, nor merely self-reproach. It is not fear of consequences, nor the mere sense of sin. It is not to be measured by feeling, though often deep feeling plays a part in true repentance, yet it is also true that one can have a deep emotion without true repentance.

Repentance is a new, positive change of direction which affects the whole of life. It is steering under a new star, and it brings a deep joy

of heaven share.—Exchange.
which, Jesus tells us, the very angels

THE UNITED CHURCH

The Crusade boxes brought in on Sunday contained over \$20. There are several not returned, and should be as soon as possible. Attendance at Sunday school is the highest for some time. Members of the congregation are asked to take an interest in any children not attending any Sunday school.

The annual meeting of the congregation will be held on Monday evening next at 7.30. Reports of the various organizations will be submitted. Refreshments will be served. The regular services will be held on Sunday and all members and friends are urged to be as regular as possible in their attendance. The junior choir will lead the praise in the morning and the senior choir in the evening.

SALVATION ARMY NOTES

Visiting Soloists Will Add to Services on Sunday—Recital on Monday
Sunday night at the Salvation Army hall the service at 7.30 will be of a musical nature with pianoforte

solos and duets by musicians from Calgary Citadel Corps, Miss Joyce Hackett, L.R.S.M., A.T.C.M., and Miss Helen Rosam. Favorite hymn singing will be a feature of the service. Captain and Mrs. Hewitt are desirous of as many friends of the Army as possible attending. A pianoforte recital will be given in Satoris hall, Blairmore, at 8 p.m., Monday, at which Dr. C. Rose, of Coleman, will preside.

Peddlers Do Not Help Local Trade

Peddlers of printing from other places do not pay a license in Coleman, or do any trading here. It is good business to deal with your local printing office, and help to provide work for those who are living here, who buy their merchandise here, who pay taxes here. The money spent with The Journal for printing and advertising does double duty. It circulates in local trade channels. Given to outsiders, it is gone for ever as far as local trading is concerned.
